

CARDIO TRACK - 900 EXL / XL / TANDURUS 594XL

Whispermill

Year 2000, we modernized our look, our product and our approach to the market, working harder to bring you not only the most innovative product in the industry but also the most natural, a new experience & comfort, with our Medical treadmill. Our commitment to bring the latest technology and highest quality product to you will be enhanced with our introduction of **CARDIO - TRACK 'WHISPERMILL'**

Once you try our new **CARDIO - TRACK & TANDURUS WHISPERMILLS** you'll agree that it's the best you can buy whatever be the purpose. 'CARDIO-TRACK' WHISPERMILL **MODEL 900XL** and 'TANDURUS' WHISPERMILL **MODEL 594XL** are full-featured treadmill designed specifically for Medical use, with direct interface through RS232 / RS485 computer interface standard. Our medical treadmills are used extensively in physiotherapy, rehabilitation, cardiology, stress testing, podiatry, and many other applications. With a rugged construction we have proven performance record for last many years for meeting heavy institutional demands. We at **HEALTH & FITNESS PRODUCTS COMPANY (HFPC)** along with our customers believe in Quality Engineering, Durable Product, and Consistent Performance. These three things that we value most have won us admiration and respect. Customer service, owner needs, user-friendly features, relentless innovation, limited downtime and warranty are a few advantages **HFPC** offers. We intend to continue leading the industry in these areas.

Using our years of experience and skills, we designed Medical treadmills that are fully compatible with many of the leading stress testing equipment manufacturers.
